## Zinc-Citric-EDTA Solution – 10% Zinc

### Product Specifications:

Zinc-Citric-EDTA Solution is a liquid zinc source which is specially formulated to contain both macronutrients (Nitrogen) and essential micronutrients (Zn). The benefits of zinc fertilizer can be seen both above and below the soil. Zinc Citric-EDTA is most effective for plants requiring high levels of zinc, including corn, beans, pecans, and cotton.

### Guaranteed Analysis:

Total Nitrogen (N).....	5.1%
4.50% Ammoniacal Nitrogen	
Zinc (Zn).....	10.0%

### Physical Properties:

Weight per gallon.....	11.5 lbs
Water Soluble Nitrogen per gallon.....	0.59 lbs
Elemental Zinc per gallon.....	1.15 lbs
Gallons per ton .....	174 gal

### Recommended Rates:

Rates should be determined on the basis of a soil and/or plant tissue analysis. In the absence of test results, the following can be used as a guide:

#### Broadcast Applications:

Severe Deficiency .....	4 quarts per acre
Slight Deficiency .....	2 quarts per acre
Maintenance .....	1 quart per acre

### Row Application:

Use at a rate of 1-2 quarts per acre as a supplement to broadcast applications

### Derived From:

Zinc Oxide, EDTA, Citric Acid, and Anhydrous Ammonia

## -Chloride FREE

- Contains more Zinc per gallon than all other competitors

- For application in starter fertilizer

- Prevents and corrects micro-nutrient deficiency

- Can be used in both foliar and soil applications

- Do not store below 25 °F.
